

The Title of Camera-ready Manuscript
- The 43rd Symposium on Powder Science and Technology -

Author 1*, Author 2, Author 3

Affiliation

ABSTRACT

This sheet indicates an example of camera-ready manuscript. The text should be printed in black on A4 white sheet (210 × 296 mm) with word processor or typewriter. The text should be typed with top and bottom margins of 20 mm and right and left margins of 20 mm. Text size should be 170 × 256 mm including tables, figures and captions. The text must be typed single-space. More than 10pt Time New Roman is preferred for the text because the manuscript will be scaled down to B5 size (0.82 times the original). The manuscript should be readable after reduction of the original size.

INTRODUCTION

The total length of manuscript should be limited up to 6 pages. The title should be set centrally in second line (presentation number will be attached at the left in the first line). If the subtitle is needed, it should be written in the next line as follows, “– subtitle –”. The author names are set centrally beneath the title, and it should be spelled correctly both first and family name of each author. Please add * mark to a corresponding author and mark to a speaker.

EXPERIMENTAL

Each paper should contain an abstract of less than 150 words at the beginning of the manuscript. Figures, tables and references in the manuscript cannot cite in the abstract. Leave a blank after the abstract and the main text begins to be written.

RESULTS AND DISCUSSION

Five keywords of the manuscript should be placed at the bottom of the first page. Corresponding author's TEL, FAX and E-mail address are written beneath the keywords.

Figures and tables should be written directly in the manuscript and they should be readable after reduction of the original size. Equations should be centered and numbered in parentheses at the right-hand margin.

Please prepare your manuscript according to this sample format.

| Table Sample | | |
|---------------------------------|---------|------------------|
| | Core | Coating material |
| Material | Glass | Silica |
| Particle size [mesh] | 330-425 | Mono-dispersed |
| Mean diameter [μm] | 43 | 0.55 1.0 |
| Density [kg/m^3] | 2520 | 2200 |

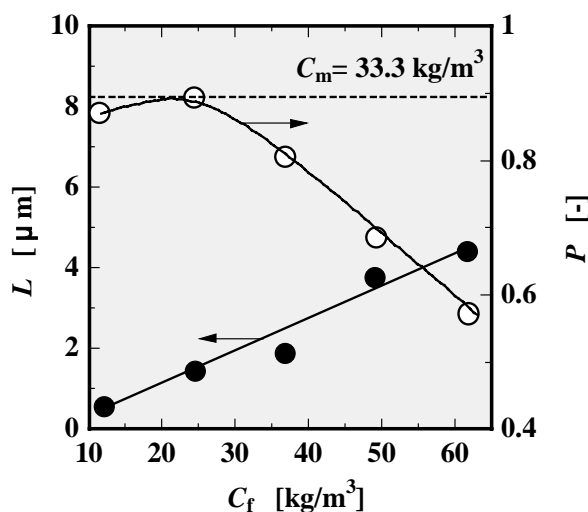

Fig. 1 This is a sample figure

Keywords: OOOO, OOO, OOOOOO

*Corresponding author. Tel: +81-00-000-0000; Fax: +81-00-000-0000

E-mail address: ooo@domain.ooo.oo.oo

SUBMISSION DEADLINE

The deadline of receipt of manuscript of oral and poster presentation is **August 12, 2005**. Submit a clean camera-ready original manuscript. Please indicate the name of corresponding author and the page number at the top-right margin of each page using an erasable pencil. Manuscripts received later may have to be omitted from the proceedings.

MAILING ADDRESS

A camera-ready manuscript should be posted (**not E-mail or FAX**) to:

Prof. Woo Sik Choi
Department of Pharmaceutical Manufacturing,
Pusan National University of Korea,
30 Changjeun-dong, Keumjung-ku, Busan 609-735, KOREA
